## Maintenance of Way ~ Work Equipment Bulletin

**DATE:** June 30, 2009

**SUBJECT:** Anchor Chute Warning Plaque – 29300046

**RATING:**

<input type="checkbox"/> <b>DIRECTIVE</b> (Action is required)	<input type="checkbox"/> <b>ALERT</b> (Potential Problem)
<input checked="" type="checkbox"/> <b>INFORMATION</b> (Action is optional)	<input type="checkbox"/> <b>PRODUCT IMPROVEMENT</b> (Enhance Product)

**MACHINE MODEL(S):** BAAM

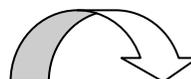

**SERIAL NUMBER(S):** 690025-690055

**SUMMARY:** If the anchor chutes are not kept full of anchors, the rods of the Escapement Cylinders, p/n 28550002 or 28550003, could be bent. Plaque 29300046 will remind the operator to keep the chutes full of anchors to avoid damaging the Escapement Cylinders. See Figure 1 on Page 2.

**OPERATIONAL IMPACT:** If the Escapement Cylinder rod is bent, the cylinder will not function properly and the anchors either will not drop into the Anchor Holders or will fall out on the ground.

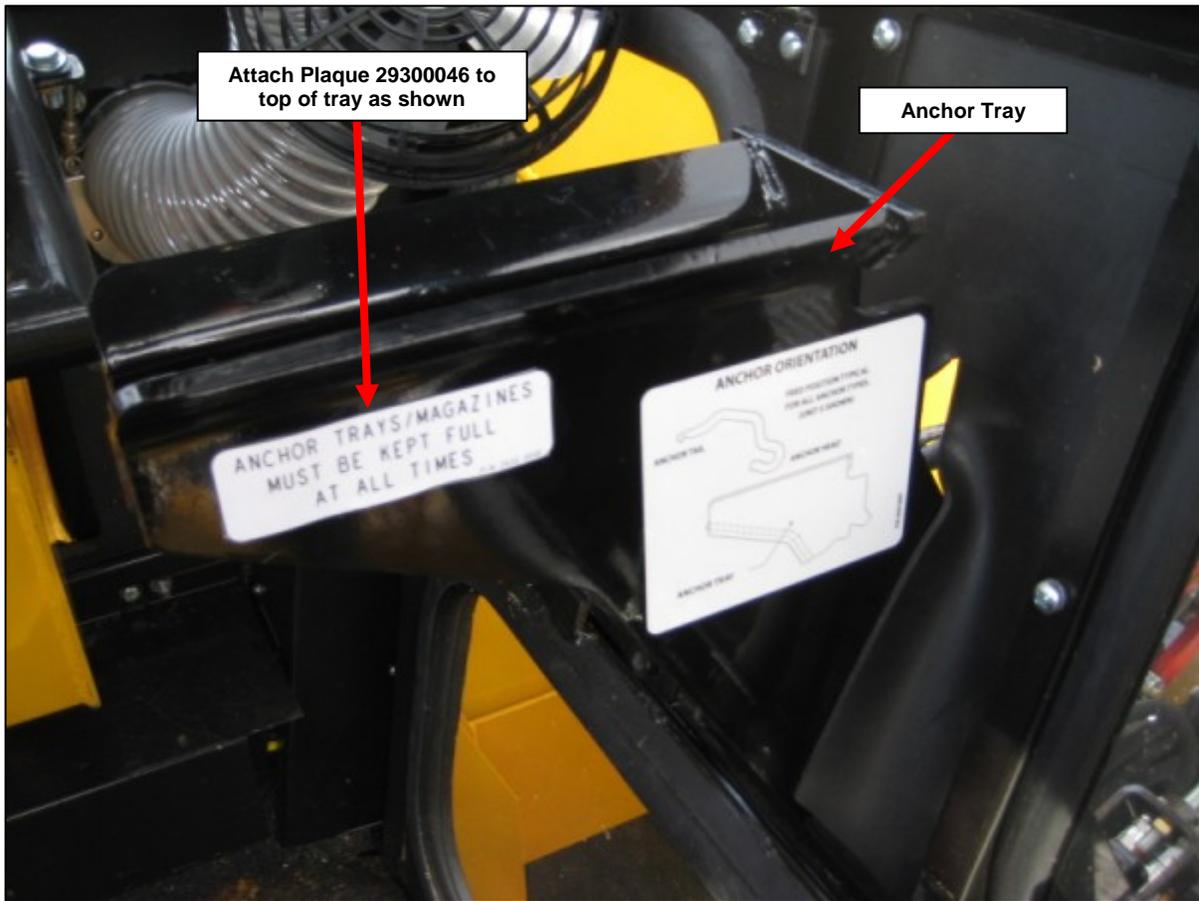

**ACTION:** The plaques are attached to the chutes as shown in Figure 2 on Page 2. Make sure the chute is clean and free of grease and oil. Machines with serial numbers 690056 and higher have had the Plaques installed at the factory.

**WARRANTY:** Plaques will be supplied under warranty for all listed machines if ordered before October 31, 2009. Contact the Nordco Service Department at 1-800-445-9258 to order. Please have the machine serial number available when ordering.
