

Aftermarket Parts Report

Current information on Nordco Maintenance-of-Way machine parts and kits

Issue 4 April, 2009

Featured product: A/C Dual Condenser Guard Kit

Part number: 98412440

Can be used with: Any CX Hammer after serial number 410592 that includes Red Dot air conditioner with dual condenser unit.

What it does: Easy and cost-effective way to shield condenser fans from potential damage on rooftop A/C unit.

Description: This kit retrofits selected CX Hammers to protect the rooftop dual air conditioner condenser. The dual guards help shield the condenser fans from loose spikes that may fall from the crane magnet during spike loading, as well as other debris that could strike the fan assemblies on the Red Dot A/C unit.

Top: Nordco A/C Dual Condenser Guard Kit 98412440 includes hardware required for installation. Bottom: Kit installed on A/C unit on top of CX Hammer.

Parts in the spotlight...

Each month we will highlight a number of new or particularly useful parts.

98411100 Battery Cable Routing Kit: This anti-abrasion sleeve prevents wear to the positive battery cable running from the battery to the starter connection on the engine, a situation that could result in a short circuit. This in turn could cause the hose to rupture allowing hydraulic fuel to escape. Nordco is providing these kits at no charge under warranty for all machines where the battery cable is secured to a hydraulic hose with cable ties. **For more information, see Nordco PSB 2008-003 or contact the Nordco Service Department at 1-800-445-9258. Please have your machine serial number handy.**

26600610 Hand Controller: Day-in and day-out, hand controllers on machines take a tremendous amount of wear and tear. A worn or faulty controller is inefficient and can cause significant downtime. Get your equipment back in service in top working condition with this simple-to-install controller used on most of our major machines. **Contact Nordco Parts Sales at 1-800-647-1724.**

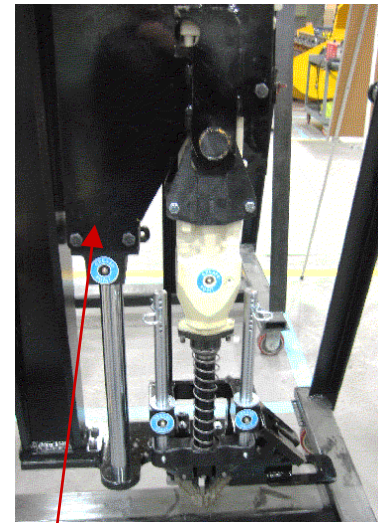

Featured product: Hammer Mounting Plates Kit

Part number: 98412439

Can be used with: CX Hammer

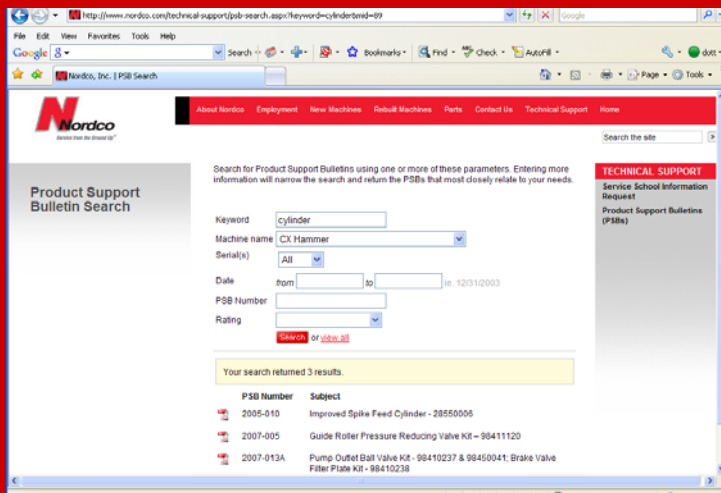

What it does: Improves alignment of the hammer anvil with the Jaw Mounting, reducing possible wear to the Jaw Mounting Bushings.

Description: Kit includes one LH Plate 56119317 and one RH Plate 56119318. Original plates must be replaced in pairs. One kit is required per hammer, and four kits will convert one entire machine. New plates are easily identifiable by part number stamped onto parts and by beveled corner on the Lock Pin Receiver.

Mounting plate, part of Hammer Mounting Plates Kit 98412439

See Nordco PSB 2008-014 for more information.

Find PSBs ASAP!

For years Nordco has issued Product Support Bulletins (PSBs) announcing product changes, improvements and required actions regarding Maintenance-of-Way machines. All of our PSBs can be accessed in printable format online at www.nordco.com. Select "Technical Support" from the navigation bar at the top of the page and then click on Product Support Bulletins. You can then search for PSBs by any combination of keyword, machine type, machine serial number, or PSB date, number or type.

Featured in coming issues: CX Hammer Swivel Seat Kit, CX Hammer and Model C Jaw Mounting Kits.
