

**Visit Nordco at AREMA...** Nordco is once again participating in the American Railway Engineering and Maintenance-of-Way Association (AREMA) annual convention and exhibition. If you are attending make sure to visit the Nordco exhibit at booth 320. Representatives will be on hand to tell you about Nordco roadway equipment; machine parts and kits; rebuilt and exchange components; and rail flaw detection products and services. The event is at the Chicago Hilton September 28 to October 1.

## Making work a little easier (and productive) for machine operators and mechanics

Track maintenance workers have demanding jobs. They often operate in remote locations in difficult conditions. This month the Equipment Services Bulletin is focusing on some of the things we can do to make their jobs a little easier, and in the process make machines more productive. Contact Nordco Parts for more information or visit the **Parts** section at [nordco.com](http://nordco.com) for a searchable database of product offerings.

**98760056 Interior Cab Lighting Kit:** For TRIPP Tie Exchangers serial numbers 760134–760234 (except 760320). Two halogen lights on swivel mounts make it possible to direct light where it's needed in the cab. Especially useful in dark winter months.

**98410271 Dome Red/White LED Lamp Kit:** For multiple machines. White LEDs provide improved illumination over incandescent lighting. Switch to red LEDs for working in low light.

**98412427 Third Man Swivel Seat Kit:** (Not pictured) For CX Hammer. Modify spike loader seat into a swivel seat. This makes it easier for the worker loading spikes to pivot back and forth. Also reduces strain on the worker and makes spike loading faster and more efficient.

**See note Bulkloader Walkway Kit:** For most CX Hammers and many Model C Spikers with push bulkloader. Sturdy, lightweight aluminum walkway extends over bulkloader, providing a rigid platform for service tech to reach the air conditioner, lights and rear window. Kit includes ladder to access walkway. NOTE: 9410513 is weld-on kit. If bulkloader includes 5/8" plates with tapped holes, use 98410520 bolt-on kit.

**22233101 Cup Holder:** For any machine. Inner step standard size for bottle and cans, outer step accepts foam insulator. Made of soft, flexible PVC, includes mounting screws.

**98800013 Coat Hanger:** For any machine with cab or roof. Reduce clutter in work area. Includes mounting screws.

**7550300 Retractable Live Track Belt:** For multiple machines. Install in cab interior to warn operator of adjacent live track. Canister attaches to inner cab wall. Retractable belt extends across door and is held in place by bracket mounted on opposite side.

**98410240 Spike Tray Opening Curtain Kit.** For CX Hammer. Heavy duty vinyl curtains block spike tray opening, helps keep heat, cold, rain snow and debris from entering cab during travel.

Left: 98410240 Spike Tray Opening Kit and 7550300 Retractable Live Track Belt. Right from top: 98760056 Interior Cab Lighting Kit; 98410513 Bulkloader Walkway Kit; 22233101 Cup Holder; 98800013 Coat Hanger.

# Beat the heat and glare with Nordco machine cab shade kits

**Limited quantities of these shade kits are in stock. Order today for immediate shipment**

Upgrade your cab interior with Nordco factory original shade kits. Transparent poly mesh material makes it possible to see outside the cab when shades are in down position. Shades feature heavy duty recoil spring and two sets of brackets to secure in fully or partially retractable position. Shades are encased in powder coated steel housings. Mounting hardware included. Shades can also be purchased individually.

|  | Location                    | P/N      | Qty Per Cab | Dimensions                |
|--|-----------------------------|----------|-------------|---------------------------|
| <b>BAAM</b>  | Complete Cab                | 98690045 | 1           |                           |
|  | Side - Left                 | 22233150 | 1           | 52.27W X 39 D X 54 OW     |

**IMPROVE MACHINE PRODUCTIVITY**

## Your cab shades don't have to look like this...

Modified household window shades and black plastic bags aren't very good choices for blocking the rays of the sun from the cab interior. Nordco can provide shades for *any* machine with an enclosed cab, provided there is a minimum 1-1/2" clearance around the window frame. We will first try to find an existing shade that fits, and if necessary can provide custom dimensions. Contact **Nordco Parts** for more information.
