

The Nordco Curve Gang Spiker (CGS) is an easy to operate, single-sided machine designed for rail operations. The Nordco CGS machine offers rail gangs fast spike driving action with a CX-type spike driving workhead. The CGS features reliable, easy-to-operate controls. The machine incorporates many of the features and controls offered in the CX Spiker. The machine's open, modular design makes maintenance easy. The compact size and reduced weight of the machine simplify loading and unloading. Spike loading from either chair makes one- or two-person operation possible. The machine is built standard with a fixed gager and can be equipped with a bridge rail roller attachment.
