

## Shuttlewagon® Railcar Mover Rebuilding Program

Source: Bill

Dated: Aug. 08, 2011

*Factory rebuild/re-manufacturing program for mobile railcar movers.*

In order to better serve the railcar moving industry Shuttlewagon, Inc. of Grandview, Missouri has initiated a rebuild/re-manufacturing program.

Phased in during the first quarter of 2011, this new rebuild/re-manufacturing program has been a big success. Customers can either trade in their existing equipment or schedule a factory re-manufacture of their existing equipment. According to Joel Frank, President of Shuttlewagon, Inc. "Not only does this offer customers more options than simply replacing equipment but also provides more flexibility for purchasing or renting previously owned machines."

The program is not limited to the Shuttlewagon brand. All makes and brands of railcar movers can be involved in the program. When budgets limit the customer from a new machine and safety cannot be compromised, this program offers customers alternatives that previously were limited in availability. This program shows our focus on quality and reliability and is just another part of Shuttlewagon's commitment to providing the best products and services for our customers.

For more information about Shuttlewagon's rebuild/re-manufacturing program or to see how it can help solve your railcar moving operating needs visit <http://www.shuttlewagon.com/equipment.html> or call (816) 767-0300.
