

PRODUCT SUPPORT BULLETIN BULLETIN NO. 291A

DATE: July 20, 1999

MACHINE: **Hydra-Spiker Model B
Super B, Super B-2
Hydra-Hammer A, B, B-2
Model C Spiker
M3 Spike Driver Module**

SERIAL

NUMBER(S): **All except Hydra-Spiker Model B s/n 101-118**

SUBJECT: **Breakaway Style Pusher Block 96410450 & 96410493**

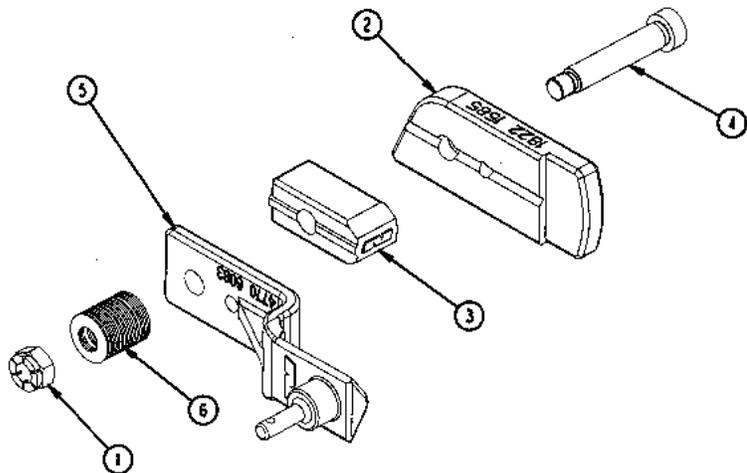

NOTE: THIS BULLETIN REPLACES BULLETIN 291

The Spike Feed Pusher Block Assembly, 96350518, has been replaced with a breakaway style assembly. The original pusher block used a spirol pin to keep the pusher block aligned properly. If the spike gun was driven before the pusher block retracted completely, the anvil would force the pusher block down and the spirol pin would break. The pin would then have to be replaced.

The breakaway pusher block eliminates the spirol pin and therefore reduces maintenance of this piece. The new assembly is designed to pivot out of the way if the driving gun is extended. Because of this feature, RH and LH assemblies are required.

The RH Pusher Block Assembly is part number 96410450 and consists of the following parts:

- | | | |
|---|----------|-------------------|
| 1 | 3042016 | Locknut |
| 2 | 18221585 | RH Pusher Block |
| 3 | 18221888 | Pusher Guide |
| 4 | 19485220 | Pusher Block Bolt |
| 5 | 47706083 | Pusher Block Link |
| 6 | 96410474 | Disc Spring Stack |

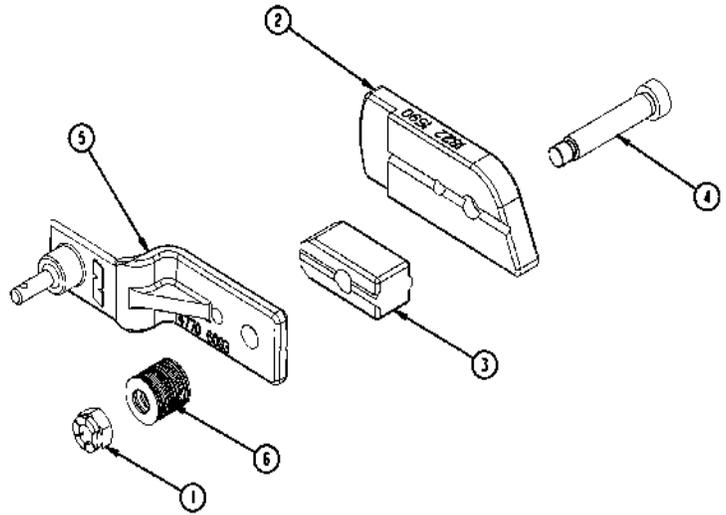

R. H. Pusher Block Assembly, 98410450

(over)

The LH Pusher Block Assembly is part number 96410493 and consists of the following parts:

- | | | |
|---|----------|-------------------|
| 1 | 3042016 | Locknut |
| 2 | 18221590 | LH Pusher Block |
| 3 | 18221888 | Pusher Guide |
| 4 | 19485220 | Pusher Block Bolt |
| 5 | 47706083 | Pusher Block Link |
| 6 | 96410474 | Disc Spring Stack |

L. H. Pusher Block Assembly, 96410493

These components will replace the current Pusher Block components. Please note that the new pusher blocks and the link can be used with the old style guide, part number 18221827.
