

PRODUCT SUPPORT BULLETIN BULLETIN NO. 313

DATE: **August 29, 2000**

MACHINE: **Super B and Super B-2 Spike Driver
Model 44 Spike Driver
Hydra-Hammer Model A, B and B-2 Spike Driver
Anchor Applicator Model E
Anchor Remover
Grabber Spike Puller (3" Axle Only)**

SERIAL

NUMBER(S): **Super B & B-2, Model 44 and Hydra-Hammer Spike Drivers – All
Anchor Remover – All
Anchor Applicator Model E – All
Grabber – s/n 330497-330498, 330509-330510, 330513-330514, 330517-330518,
330523-330530, 330535 (CP Machines Only)**

SUBJECT: **Split Axle Sprocket – 3" Diameter Internal Drive Axles**

A split axle sprocket is now available for these machines to replace the one-piece solid sprocket previously used. The split sprocket will allow quick replacement of the sprocket without removing the wheels and bearings from the axle.

The Spike Drivers, Anchor Remover and Anchor Applicator will use **28-tooth split sprocket p/n 75120399**. This will replace the one-piece sprocket, p/n 75120400, and taper lock bushing, p/n 73040370.

The Grabber will use **20-tooth split sprocket, p/n 75100371**. This will replace the one-piece sprocket, p/n 75120370, and taper lock bushing, p/n 73044300.

The following replacement axle assemblies have also been changed to incorporate the split sprocket:

Super B & B-2, Model 44 and Hydra-Hammer Spike Drivers, Anchor Remover, Anchor Applicator Model E

- 96350425** Insulated with **28-tooth sprocket, p/n 75120399**, and Delrin (white) insulating wheel bushings.
- 96350592** Insulated with **28-tooth sprocket, p/n 75120399**, and phenolic (brown) insulating wheel bushings.
- 96350436** Non-insulated with **28-tooth sprocket, p/n 75210399**.

Grabber Spike Puller

96330644 Insulated with **20-tooth sprocket, p/n 75100371**, and Delrin (white) insulating wheel bushings.

Any orders for solid sprocket **75120400** will be replaced with split sprocket **75120399**.

Any orders for solid sprocket **75120370** will be replaced with split sprocket **75100371**.
