SUBJECT: One-man/two-man Selector Switch Replacement Kit – 98330135

This kit has been developed to replace the One-man/two-man Selector Switch, p/n 78891505. The kit, p/n 98330135 consists of a SPDT toggle switch, p/n 5123593, a relay, p/n 5195882, hardware and installation instructions.

This kit will replace the existing selector switch with a more reliable toggle switch and relay. Installation involves removing the existing switch and mounting and wiring the new switch and relay. Installation should take about 1 hour.

A schematic drawing of the revised wiring is shown below.

Please contact your NORDCO Representative or the NORDCO Parts Department for pricing and availability.
