<input checked="" type="checkbox"/> INFORMATION (Action is optional)	<input type="checkbox"/> PRODUCT IMPROVEMENT (Enhance Product)

MACHINE MODEL(S): M & M2 Ballast Regulators/Snow Clearing Machines

SERIAL NUMBER(S):

SUMMARY: A Greaseable Engine Door Hinge is available to replace the standard hinge on NORDCO Model M and M2 Ballast Regulators/Snow Clearing Machines. The hinge includes a grease fitting allowing the hinge to be easily lubricated. The kit is part number **800285** and consists of 5 hinges and instructions.

OPERATIONAL IMPACT: The Greaseable Hinge will prevent the hinge from rusting and allow easier operation of the door.

ACTION: The original hinges must be removed by grinding off the weld. The Greasable Hinges must be welded to the engine enclosure and door. There are 2 hinges required on one door and 3 hinges required on the other door. Installation should take about 2 hours per door.

WARRANTY: None
