

# Aftermarket Parts Report

Current information on Nordco Maintenance-of-Way machine parts and kits

Issue 6 June, 2009

## See “what’s new” in MOW parts on the Nordco website

We are frequently adding new material on Nordco Maintenance-of-Way machine parts and kits to our website at [www.nordco.com](http://www.nordco.com). We have developed a new section that highlights some of the most important and interesting developments. On the Parts page click on “What’s New” on the left hand side of the page, and you will be linked to information on new products.

### What's new...

Nordco is continually developing new repair and upgrade kits for our Maintenance-of-Way Machines. We will frequently update this page with information on some of our new products and other items of interest. Click on the titles for more information.

[Nordco Bulkloader Walkway](#): Provides access to top of cab, stores in upright position.

[Nordco Dual Condenser Guard](#): Protects the rooftop A/C condenser from spikes and debris.

The “What’s New” page links to printable product literature on Nordco MOW machine parts and kits.

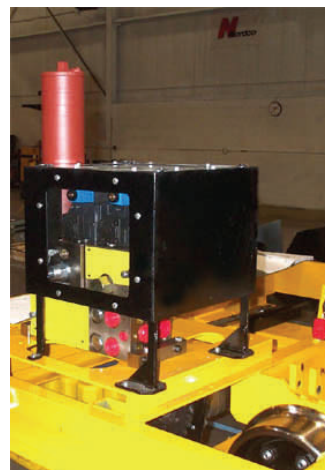

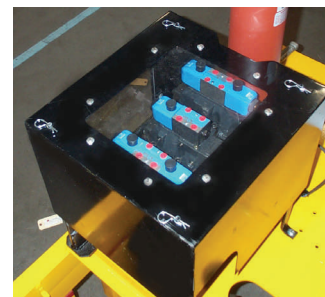

## Featured product: Steel Manifold Covers Assembly Kit

**Part number:** 96412822

**Can be used with:** CX Hammer

**What it does:** Protects manifold stacks from weather and debris.

**Description:** This kit includes five sturdy steel covers that shield the manifold valve stacks on the CX Hammer from rain, snow, ice and debris. This helps prevent damage to bolts, valves and O-rings, reducing the need for maintenance and costly downtime. The kit includes a right hand and left hand main manifold cover, left hand and right hand guide roller feed manifold cover, and a propel manifold cover. The covers are easy to install and remove when the valve stacks require servicing.

*Top: Nordco CX Hammer. Middle and bottom: Two of the five covers included in the Steel Manifold Covers Assembly, 96412822. The covers include a clear, impact resistant panel so the valve stacks remain visible at all times.*

## Parts in the spotlight...

Each month we will highlight new and particularly useful parts

### Lubricated Rail Lifter Clamp Roller

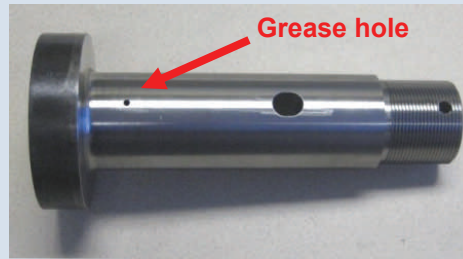

**Pin 19552002:** For the TRIPP, serial numbers 760125-760322. The

addition of a grease hole makes it possible to provide additional lubrication to the pin and self-

lubricated bushing. It also helps force

contaminants out of the bushing. The **Grease Fitting 3801052** on the bottom of the pin is sold separately.

The Lubricated Rail Lifter Clamp Roller Pin is interchangeable with the standard non-lubricated pin. For more information, see Nordco Product Support Bulletin 2009-001.

*Lubricated Rail Lifter Roller Clamp Pin 19552002. Left, side view showing location of grease hole. Right, bottom of pin showing placement of Grease Fitting 3801052.*

## Featured product: Tray Assemblies

**Part number:** 96411183 RH Standard Spike Tray  
96411184 LH Standard Spike Tray  
96411185 RH Oversized Spike Tray  
96411186 LH Oversized Spike Tray  
98411187 RH Lewis Spike Tray  
98411188 LH Lewis Spike Tray

**Can be used with:** CX Hammer, Model C Spiker, 99C Spiker

**What it does:** Combines Tray, Tray Head with Bolt-On Guide, Feed Cylinder and Pusher Block Assembly into a single unit.

**Description:** This kit makes it possible to simultaneously make a complete change out of all four elements. It speeds maintenance and reduces machine downtime, important considerations during the busy construction season. Contact Nordco Parts at the numbers listed below for assistance determining the correct Tray Assembly for your machine.

*Tray Assemblies include the Tray, Tray Head, Feed Cylinder and Pusher Block Assembly along with hardware required for installation.*
