

Aftermarket Parts Report

Current information on Nordco Maintenance-of-Way machine parts and kits

Issue 11 November, 2009

NORDCO INTRODUCES NEW MACHINE MAINTENANCE KITS & PARTS BROCHURE

The construction season is winding down, which means machines are being pulled off the track and brought into the shop. Just in time, Nordco has produced a new four-page guide listing many of our most popular machine maintenance kits and parts. The four-page brochure covers multiple Nordco machines, including the CX Hammer, TRIPP, Auto-Lift, SP2R and more. Kits and parts are presented based on where they are used on the machine, making it easy to find the right item for your application. If you would like a copy of the brochure, contact **Nordco Aftermarket Parts** at the phone number or email address below. Or, go to the Parts page on our website at www.nordco.com and download a printable copy.

Featured product: Tie Gripper Storage Kits

- Part numbers:**
- 98760068 Gripper Storage Bracket Kit Without Grippers
 - 98760069 Storage Bracket Kit with Wood Tie Grippers
 - 98760070 Storage Bracket Kit with Concrete Tie Grippers

Can be used with: TRIPP Tie Exchanger, all serial numbers

What it does Provide storage on the rear of the TRIPP for a set of four Tie Grippers. This makes it convenient to swap grippers when alternating between wood and concrete ties.

Description: 98760068 consists of the support brackets and hardware. 98760069 includes brackets, hardware and four Wood Tie Grippers. 98760070 includes brackets, hardware and four Concrete Tie Grippers.

Nordco TRIPP Machine.

Tie Grippers stored on back of TRIPP Machine.

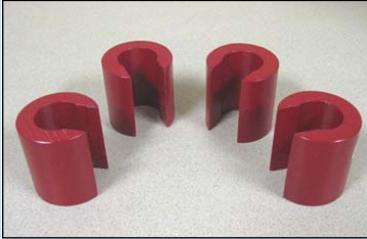

Tie Gripper Storage Kit is available with Wood or Concrete Tie Grippers.

Parts in the spotlight...

Each month we highlight new and particularly useful parts

98790176 Auto-Lift Rail Sweep Kit: Adds adjustable rail sweeps to front and rear of Auto-Lift Rail Lifter. Helps clear debris from track.

98760067 Suspension Arm Stop Kit:

Used when re-railing TRIPP Machine. Simple-to-install kit prevents suspension arms from pivoting downward and damaging the air shocks on the machine. Place on the frame T-bolt between the upper lock nut and the frame to retain work position of the suspension arms on either the front or rear axle.

Auto-Lift Rail
Sweep Kit.*

Featured product: Joystick Valve Upgrade Kit

Part number: 98760066

Can be used with: TRIPP Tie Exchanger
Serial numbers 760125 - 760359

What it does: New, more durable, heavy-duty internal construction joystick valve.

Description: Includes valve and hardware. One kit required to convert from original joystick valve. 98760036 Hand Controller Stop Ring is not required with the new valve.

98760066 Joystick Valve Upgrade Kit.

Feel a little chill in the air?

Get your machines ready for winter and help protect your operators from the elements with a Curtain Kit from Nordco.

Cold and snow seem to have come early in many parts of North America this year. We offer a selection of front, rear and side Curtain Kits for many open-cab machines, including the Model C Spiker, Model 99C Spiker, Curve Gang Spiker, Anchor Applicator and Grabber Spike Puller. Contact **Nordco Aftermarket Parts** at the numbers listed below to find the Curtain Kit that's right for your machine. Or, check out the Kit Search in the Parts section at www.nordco.com.
