

# Aftermarket Parts Report

Current information on Nordco Maintenance-of-Way machine parts and kits

Issue 21 September, 2010

## Parts manuals and more are now online

Nordco's popular all-inclusive machine DVD is now available on our website. Select **Online Parts Manuals** on the main Parts page for detailed mechanical, electrical and hydraulic information on all current and many older Maintenance-of-Way machines from Nordco.

**Operation**  
Mechanical Hydraulic

**CX Hammer with PLC** HYDRAULIC

**EMERGENCY PUMP USE - ELECTRIC PUMP**

**Tools And Equipment Required For These Procedures:**

- 3/4-Inch Combination Wrench
- Company Furnished Padlock
- Pump Hose (Found In Toolbox)
- Lickeys (Found In Toolbox)

**For All Components Except Brakes:**

- Turn Ignition switch to the OFF position.
- Open the battery box (or separate battery disconnect box - if provided) and turn the battery disconnect switch to the OFF position.

**For the Hydraulic Brakes:**

- With the machine on level track, chock ALL wheels to prevent movement.

**Quick Disconnect**  
Brake Lock Valve (Shown From Rear of Left Manifold)

## Featured product: Rail Sweep Kit

Part number: 98760077

Can be used with: TRIPP Tie Exchanger  
All Serial Numbers

What it does: Remove loose ballast and debris from the rail head when TRIPP is in operation. Sweeps are mounted ahead of front and rear wheels, and behind rear wheels.

Description: Includes qty. (12) B-27738 Rubber Broom Element; qty. (6) C-27736 Broom Clamp; qty. (2) 13179848 Rail Sweep Mounting Bar; 56144915 Rail Sweep Mounting Plate; hardware & installation drawing.

Nordco TRIPP Tie Exchanger.

98760077 Rail Sweep Kit.

For a complete list of kits, go to the main Parts page at [www.nordco.com](http://www.nordco.com) and click on **Search for Repair and Upgrade Kits.**

## Parts in the spotlight...

### Each month we highlight new and particularly useful parts

Here are just three of the items featured in the new **Nordco Troubleshooting Tools & Service Parts** list. The complete list can be found by clicking on What's New in the Parts section at [www.nordco.com](http://www.nordco.com).

**(Top) 7078070 DIGITAL HAND VOLT, OHM METER:** Compact tool for checking voltage, ohms, continuity.

**(Middle) 81380010 JAW SPRING COMPRESSION TOOL:** Used to change out jaws on CX Hammer, Model C and older retrofitted machines.

**(Bottom) 4011560 KENT HAMMER KF3 SPANNER WRENCH:** For removing Diaphragm on CX Hammer, Curve Gang Spiker & SS Spiker.

## Featured product: Anchor Bin Guard Kit

**Part number:** 98680050

**Can be**

**used with:**

Anchor Applicator F

Serial numbers: 680265, 680267, 680275-680329

Rebuilt Anchor Applicators

Serial numbers: 680265RBUG-680329RBUG

**What it does:**

Prevents anchors overhanging edge of Dump Bin from becoming lodged between the edge of the bin and Bin Transfer Chute. This can occur when the Anchor Loader is filled, and the machine operator tips the Dump Bin to transfer anchors to the Anchor Bin.

A Guide Plate covers the gap between the Dump Bin and Bin Transfer Chute; Flow Control Valve slows dump speed in "up" direction. Machines without a Bolt-On Bin Transfer Chute do not use the Guide Plate. Flow Control Valve and Warning Decal available separately.

**Description:**

Includes qty. (1) 56300030 Anchor Guide Plate; 1603853 Flow Control Valve; qty. (2) 56420071 Anchor Overhang Warning Decal; hardware and installation instructions.

*Nordco Anchor Applicator Model F.*

For more information on this kit, see Nordco Product Support Bulletin 2010-016. A complete, searchable library of PSBs is available in the Technical Support section at [www.nordco.com](http://www.nordco.com).
