

New Spare Parts Packages for TRIPP and BAAM Machines... Nordco has introduced additional Spare Parts Packages for the TRIPP Tie Exchanger and BAAM Anchor Applicator. The new TRIPP Expanded and Fleet packages are designed for machines that include Rail Lift Cylinders with an internal LVDT. Nordco has also created new Expanded and Fleet Packages for the BAAM. They join the existing Basic package. Spare Parts Packages provide a selection of critical and high-use components for all Nordco current production machines. Visit the **Parts** section at www.nordco.com for a complete, searchable list of more than 100 Spare Parts Packages.

Nordco BAAM.

Featured Exchange and Rebuilt Component: CX Hammer Nipper Assembly

Part number: 90410091

Machine: CX Hammer Spiker, Model C Spiker
all serial numbers.

What it does: The Nipper Assembly is a complete, pre-assembled package for the Nordco CX Hammer Spiker. The assembly includes a Nipper Frame with all required mechanical and hydraulic components in a ready-to-install unit.

What it does for you: The CX Hammer Nipper Assembly Exchange offers multiple benefits, including:

- Install a complete upgraded, major machine element in a single step.
- It's a like-new component at a reduced cost; full Nordco new warranty applies.
- Aids in maintenance planning. Change out components on a regular schedule.
- Ready availability. Nordco maintains an inventory of this and other exchange units.

The Nordco Exchange Component Program

Nordco offers an extensive selection of Exchange Components for our Maintenance-of-Way Machinery. You send your worn out unit to Nordco. Depending upon the component, we either rebuild your unit or send a completely refurbished replacement. Each Equipment Services Bulletin will feature one of our Exchange Components.

For more information, contact Paula Ranchel at 262-358-1352 or by email at pranchel@nordco.com.

DON'T FORGET TO CHECK OUT THE ALL-NEW NORDCO WEBSITE... The redesigned website includes comprehensive information on Nordco's complete product line, as well as all the parts-related resources for Maintenance-of-Way Machines that you've used in the past. These include part number lookup, repair & upgrade kit database, quote and order request, online machine manuals and more. The new site includes even more information and features enhanced search capabilities.

Curtain Kits Offer Protection from the Elements

Curtains help shield operators from heat, cold and debris during work and travel in open-cab machines. Installation hardware included.

<u>Part number</u>	<u>Machine</u>	<u>Serial Number Range</u>
96680292	Anchor Applicator E	All
96680419	Anchor Applicator F	680292 & Up
96330652	Grabber LS-2 Spike Puller (Sides & Rear)	330483 - 330601
98351065	Super Claw Spike Puller LH	350449 & Up
98351066	Super Claw Spike Puller RH	350449 & Up
98480004	Curve Gang Spiker	All
VARIOUS	Model C Spiker, 99C, CX w/o Cab	Consult Nordco

Top: Curtains are used on open cab machines like this Anchor Applicator Model F. Right: Curtains are constructed from durable, heavy-weight vinyl. Grommets hold curtains securely in place, resist tearing.
