

NEW FROM NORDCO

Featured Product: 2 - Speed Travel Kit for SP2R

Part number: 98310020

Used with: SP2R Spike Puller, all serial numbers

What it does: Retrofit SP2R with 2-speed capability for increased torque in work mode without compromising track travel speed. High gear used for travel; performance similar to one-speed motor. Low gear offers:

- Increased tie-to-tie speed – Gang doesn't have to wait as long for the SP2R to work ahead.
- Improved ability to negotiate steeper grades.
- Improved ability to negotiate ramps when loading machine onto trucks or flatcars.

Description: One kit required per machine. The kit includes the following components, plus installation instructions and all required plumbing and hardware items:
