

GETTING MACHINES READY FOR THE NEW CONSTRUCTION SEASON? We're ready to handle all your needs for parts, repair and upgrade kits and exchange components. Contact Nordco Parts at the number and email below, or visit the Parts section at www.nordco.com.

NEW PRODUCTS: THE YEAR IN REVIEW

Nordco is continually developing new aftermarket products designed to help our customers repair, maintain and upgrade their Maintenance-of-Way machines, and increase the comfort and efficiency of machine operators. Here is a recap of just some of the new products that we introduced in 2013. There will be many more in the new year and beyond.

TRIPP TIE EXCHANGER

98760295 Workhead Wearpad Upgrade Kit: Includes new workhead wearpads constructed of durable non-metallic, self-lubricating material for longer life and less maintenance.

98760292 Air Manifold Upgrade Kit: Air manifold features corrosion-resistant ceramic internal components instead of steel for longer component life, particularly when operating in wet conditions. Manifold design also helps keep water out.

98760155 TRIPP Wear Pad & Shim Kit: Complete replacement of wear pads and shims on both sides of the machine.

98760136 Rail Lift Guide Kit: Brightly colored rods mount on either side of Rail Lift Frame, providing visual point-of-reference. This makes it easier for operator to determine position of frame when inserting or extracting ties.

Right: 98760136 Rail Lift Guide Kit installed on TRIPP. Right, from top: 98760295 Workhead Wearpad Upgrade Kit; 98760292 Air Manifold Upgrade Kit; 98760155 Wear Pad & Shim Kit.

SP2R SPIKE PULLER

98310020 2-Speed Travel Kit for SP2R: Two speed capability offers increased torque in work mode without compromising travel speed. Also offers improved ability to negotiate steeper grades and ramps when loading machine onto trucks or flatcars.

The 98310020 2-Speed Travel Kit includes the manifold at left and the components on the right.

QUAD DRILL

17721530 Tie Borer Bit, 11/16": Sharp-edged single fluted shaft quickly and cleanly penetrates wood ties. Made from durable high-speed steel. For machine applications only. For hand-held tools order **17721531 Tie Borer Bit Double Flute.**

17721530 Tie Borer Bit.

NEW PRODUCTS...

CX SPIKER

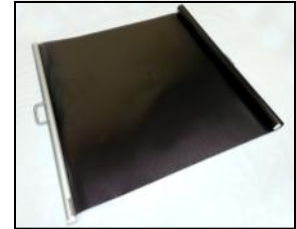

98410320 Spike Feed Warm-Up Kit. Helps ensure proper operation of spike feed cylinder in extreme cold by directing a small flow of heated oil to the hydraulic line connected to the cylinder each time it is activated. One kit required for both sides of machine.

98410320 Spike Feed Warm-Up Kit.

MULTIPLE MACHINES

Various P/N Cab Sun Shades: Available for most Nordco machines with cab. Available as complete cab kits or individual shades. Choose from polyester mesh fabric shades encased in durable powder coated steel housing, or polyester film shades with micro-metal coating that reflect heat and glare. Curtain kits available for open cab machines.

98840010 Mobile Emergency Response Kit. Selection of commonly used first aid and emergency response materials. Sides, front and top of compact, heavy, duty backpack with reflective stripes open to reveal multiple compartments. Use in office, shop or field.

98800053 24" Cobra Brake Shoe Kit: For TRIPP Tie Exchanger and M7 Ballast Regulator/Snow Fighter. Complete, ready to install brake shoe assembly. Includes brake shoe, brake head bracket, clevis pin and hardware. One kit required per wheel.

98840009 Prox Cable Kit: For most Nordco machines. Selection of 10 frequently used prox cables in various lengths from 24" to 94", stored in heavy weight vinyl dry bag like the one pictured at right.

98840018 Expanded DIN Cable Kit. Selection of frequently used Din cables, stored in dry bag. The kit includes all the cables included in the 98840001 DIN Cable Kit, plus 3 each of the 96" and 126" DIN cables.

Kits for multiple machines, from top: Polyester film shade; 98840010 Mobile Emergency Response Kit; 98800053 24" Cobra Brake Shoe Kit; 98840009 Prox Cable Kit.

MORE FROM NORDCO...

90760025 TRIPP Gripper Exchange.

Exchange components: In addition to parts and kits for Nordco MOW machines, we offer exchange components for most of our equipment. These are major elements such as workheads that can be replaced in a single operation. You send in your old worn-out unit and we replace it with a like-new refurbished component with a full factory warranty.

Tamper parts and kits: Nordco offers an extensive selection of parts and kits for MK III and IV series and Jackson tampers. Contact Nordco for more information or visit our website at www.nordco.com.

Visit Nordco at the 2014 NRC Conference... Nordco will be exhibiting at the National Railroad Construction and Maintenance Association (NRC) Conference and Exhibition. The 2014 event takes place January 5 - 8 at the JW Marriott Desert Springs in Palm Desert, California. Nordco representatives will be on hand at booth 521 to provide information on our complete line of Maintenance of Way equipment, parts, repair and upgrade kits and exchange components, and rail flaw detection products and services.
