NEW FROM NORDCO

Featured Product: Quick Change Pulling Cylinder Kit

Part number: 98310115

Used in: SP2R Spike Puller Two Rail
All serial numbers with Lewis Bolt Pulling Head

What it does: Substantially reduce downtime in the field. Quickly change an SP2R previously set up to pull Lewis Bolts to standard spike operation, and then back again as needed. The kit adds a "quick change" feature to the pulling cylinder setup, making it possible to easily and rapidly change back and forth between the two configurations.

Description: The kit includes the following components, plus installation instructions and hardware.

PART #	QTY.	DESCRIPTION
28553599	2	CYLINDER, 3.50 DIA 12.5 STROKE
13309272	4	PULL CYL MOUNT LUG
53647773	4	HITCH PIN

Nordco TRIPP.

90760132 Rail Clamp Assembly: Refurbished and upgraded exchange unit includes all mechanical and hydraulic components, preassembled and ready for installation.

98760289 Insertion Speed Control Kit: For all machines prior to S/N 760255. Makes it possible to adjust tie insertion speed for improved operation and control.

98760067 Suspension Arm Lock Kit: Used when rerailling TRIPP. Simple-to-install kit prevents suspension arms from pivoting downward and damaging air shocks. Place on frame T-bolt between upper lock nut and frame to retain work position of suspension arms on either front or rear axle.

98760170 Hydraulic Swivel Kit: Includes both main hose swivels and swivel repair kits for complete change-out on one side of the TRIPP machine. Stored in convenient heavy-duty vinyl dry bag.

Visit the Parts page at nordco.com for a complete database of parts, kits and rebuilt components, searchable by part number, machine type or keyword.
