

IMPROVED WORKHEAD PLATES, GUIDE ROD & BUSHING

Nordco has introduced the following components for use on Maintenance-of-Way Machines.

**For use with Nordco CX Hammer Production Spikers,
C-CX Conversion, all serial numbers.**

Nordco P/N 56120200
LEFT HAND OUTER WORKHEAD PLATE

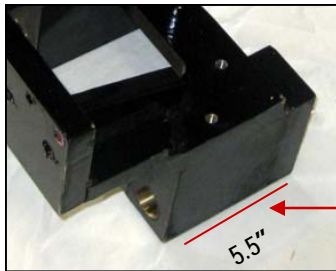

Nordco P/N 56120201
LEFT HAND INNER WORKHEAD PLATE

Nordco P/N 56120202
RIGHT HAND OUTER WORKHEAD PLATE

Nordco P/N 56120203
RIGHT HAND INNER WORKHEAD PLATE

Nordco P/N 65630101
20" STAINLESS STEEL GUIDE ROD
(56120203 CHROME GUIDE ROD also available)

Nordco P/N 22034760
5.5" BRONZE GUIDE ROD BUSHING

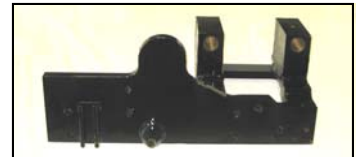

Workhead plate structure has been reinforced and depth increased to accept longer Guide Rod Bushing.

PRODUCT DESCRIPTION

Nordco has developed improved Workhead Plates for the CX Hammer that reduce machine downtime by increasing the life of the Guide Rod. The depth has been increased on the portion of the Workhead Plate that houses the bushing, making it possible to accept a longer-lasting 5.5" Bronze Bushing and 20" Stainless Steel Guide Rod. The Workhead Plate has also been reinforced for greater durability. **IMPORTANT:** To ensure proper operation, do not use the standard 18" Guide Rod (65636100) with these Workhead Plates and 5.5" Bushing.

Nordco CX Hammer

*From top:
56120200 LH Outer Workhead Plate;
56120201 LH Inner Workhead Plate;
56120202 RH Outer Workhead Plate;
56120203 RH Inner Workhead Plate;
65630101 Stainless Steel Guide Rod;
22034760 Bronze Bushing.*
